Profile

Short-form video editor with 1.5+ years of experience. I take a video from idea and hook to edit, captions, sound design and delivery — UGC, talking heads, product videos and direct-response ads for Meta and TikTok, with hook and CTA variations for testing. I edit in CapCut and produce fully AI-generated ads and product visuals with Seedance, Higgsfield, Google Flow (Veo), Kling, Runway and ElevenLabs.

- Owned the full cycle: content ideas and hooks, AI generation, editing in CapCut, captions, sound design, publishing
- Meme, skit, listicle, before/after, unboxing and product-demo formats; iterated on views and retention
- Created AI-generated product scenes and brand intros (Seedance, Higgsfield, Flow/Veo, Kling, ElevenLabs)

Freelance Video Editor & Content Creator — Self-employed · Remote · Jan 2025 – Mar 2026

- Delivered TikTok/Reels/Shorts edits, talking-head and podcast clips, VSL-style and UGC comedy ads, AI-generated commercials and brand intros
- Handled the whole process: brief → structure/script → edit (CapCut) → captions and SFX → revisions
- Created ad creatives and product visuals with AI tools (Midjourney, Runway, Kling, ChatGPT)

- AI-generated commercials — 15-second brand commercial (Higgsfield + Seedance), luxury watch and product ads, food commercial for a US burger brand (Kling, Runway, Magnific)
